An Executive Summary (ES)

Imagining A Day in "Joyful-Rigor Academy, JAR"	17
MCCE Philosophy	18

Part I: A Mega Apparatus of Learning for Mass Access to Quality College Education

Introduction

Mass Customization of College Education (MCCE)

The Key Concept of the Book

1. The Logic for MCCE Hybrid Structure	27
The Blend	27
2. What Is MCCE?	29
MCCE Automates What Is Automatable in Education	29
How Does MCCE Customize (Personalize) Education?	31
The Organizational Scope of MCCE	31
MCCE — Beyond Course Redesign	33
3. How MCCE Can Enhance Education and Elevate the Nation	34
Mass Access to College Education — a Yearning, an Urgency, a Profitable, and Exportable Good Deed	34
The Centrality of Undergraduate Education	37
The Creeping Corruption: Selling Enrollment and Diplomas versus Selling Quality Education	38
The Wastes in the Present System	39
The Enrollment Pressure Moves Many Institutions Toward "Diploma Mills"	40
Poor Literacy in the Face of Increasing Complexity, Misinformation, and Disinformation	41
Mass Education and Social Justice	42
MCCE Promotes Egalitarian Education	42
4. The Impediments to MCCE	43
The Taboo of Mass Production in Education	43
The Equilibrium of Comfort and Profits	44
The Wrong Experts to Evaluate MCCE	44

Chapter 1

Taking Positions on Underlying Issues 47

1.1 Repeated Key Terms and Phrases	47
Collective	48
Complexity	48
Information and knowledge	49
Age	49
Knowledge Age	49
Cohesion and cohesiveness, as	50
Concepts	50
Whole person	51
1.2 Views on Intrinsic versus Extrinsic Motivations	51
The Gridlock of Standard Testing versus Anti-Testing	51
A Utopian School	52
MCCE: A Utopian School with Learning Accountability	53
The Panacea of Motivation	53
Encouraging motivations to pursue a serious education	53
Discouraging and distracting factors that block learning	54
The Motivating Environment of MCCE	55
Does Robust Learning Accountability Kill Creativity?	55
1.3 MCCE Is Neither Standardized Testing nor the Present Online Education	57
1.4 How New Is MCCE?	57
1.5 The Tone, Language, and Approach of This Book	58
1.6 Avoiding the Sin of Generalizations	58
1.7 Reexamining The Successful Life Cycle of American Higher Education	60
1.8 On Being "College Material" or Not	62
1.9 MCCE Target Students and Institutions	64
1.10 System Presentation versus a Sequential Narrative	64
1.11 "Data-Driven" versus "Overwhelming Circumstantial" Evidence	66
1.12 Not a Book of Learning Theory, but an Institutional Design	67
1.13 MCCE and Competency-Based Education	67
1.14 Frontier Technology versus Structural Change	68
1.15 Reading Diagrams	68

Chapter 2.

The Mission and Scope of MCCE 71

2.1 MCCE is a Formal Education System	71
The Reference Model: The Seven Stages of Teaching and Learning in Formal Education	72
2.2 The Mission of Modern Formal Education to which MCCE Subscribes	74
Economic productivity	74
Screening	75
Inculcating values	75
Creation of social capital:	76
2.3 The Scope of MCCE	76
Core operations	77
2.4 MCCE: A Paradigm Shift From Shop-Mode to Industrial Orchestration	78
Shop Mode Education and its Problems	78
Adopting Relevant Lessons of Industrial-Scale Orchestration to Undergraduate Education	81
Industrial-Scale Orchestration will Bring consistency and Continuous Improvement to Education.	82
At What Education Level Industrial Orchestration Can Work?	84
Only at High School and Undergraduate Levels	84
The Needed Infrastructures For MCCE are Here and Now	85
Modularity	86
Creativity in Shop Mode Production versus Creativity in Large-scaled Industrial Orchestration	87
2.5 Institutional Redesign versus Course Redesign	88

Chapter 3

Business Organization and Processes of MCCE 91

3.1 MCCE Business Model	91
3.2 MCCE Central – Tasks and Processes	92
Academic Program Development	93
Implementing Modularity to Accumulate Institutions' Intellectual Assets	95
The Role of Practitioners in Determining the Contents and Programs	95
MCCE Enriched Course Knowledge Base and Course Practice Base	97
Content, Expanded to Cyberspace Linked to MCCE-CAL	99
Active Learning	99
Keeping Students On Course	102
Accommodating Different Learning Styles/Strategies	103
Frequency of Content Updates	104
Delivery: Dealing with Boredom	104
Education versus Entertainment: Conflicts and Cooperation	107
A Summary of MCCE Central Functions	109
Organizationally, MCCE Central is Composed of Several Business Subsystems	109

Operationally, MCCE Central will have two sets of operations: academic operations and administrative operations. 110

3.3 MCCE-affiliated Schools 111

Avoiding the Pitfalls of Pure Online Education 111

Restructuring the Instructors' Role 113

Capitalizing on "Measured" Peer Study Groups 114

Managing Exam Anxiety within the Culture of Accountability 115

MCCE: a Growing Field for a Balanced Life 116

Preventing the Damages of Excessive Competition 116

Campus Life Experience 117

Organization of MCCE-Affiliated Schools 118

3.4 Faculty Rotation in MCCE 119

3.5 Research in MCCE 120

Chapter 4

Learning Accountability and Quality Control 122

4.1 Fundamental Issues in the Present Learning Accountability and Quality Control 123

4.2 Structural Flaws of the Present Accountability 124

The Wrong Target of Accountability 124

What is the Institution's objective variable? Enrollment Dollars or the Sum Learning Output?
125

The Fallacy of Cloning Customer Survey into Students' Evaluation 126

The Fallacy of "Students as Customers" 127

(8) Who Is the Customer? Who Foots the Education Bill? 129

The Wrong Instructor's Accountability Measurement 130

Serious Exams and Grading have Few, if any, Advocates 131

4.3 The Sum Effects of Haphazard Accountability 134

4.4 MCCE Arrangement and Mechanics of Testing and Grading 135

Cohesive Integration of Exams and Grading With the Course Knowledge Base and Course Practice Base 135

Centralizing Exam and Grading, Decoupled from Instructors 137

Grading Vector — Building Assessment into Every Exam and Grading 138

MCCE Grading Procedure 139

The Effect of Assessment on Students' Focus, Study Habits, and Attitude toward Learning Responsibility 141

Cost of Grading: Money Well Spent, a Wrong Corner to Cut 141

4.5 Comprehensive Exams and Their Effects 142

Practicing optimal risk-taking — overcoming the fear of failure 143

4.6 Measuring System's Performances 144

Progress Index: A Proxy 144

Student's Course Progress Indexes (SCPI) 145

Progress in Each Session 146

Progress in Each Course in All Sessions 146

Progress in Each Program in Each Affiliated School 146

Affiliated School's Progress Index	146
The Significance of Recording Students' Participation	147
4.7 Academic Accreditation, Auditing, and Ranking in the Present System versus MCCE	147
The Value and Limitations of Accreditation	147
Ranking	149
Audit Control of an MCCE-Based Institution	150
Institutional Research	150
4.8 Other Troubling Issues in Testing and Grading — and MCCE Positions	151
MCCE is not "Standardized Testing ."	151
The Creeping Corruption of "Teaching to the Test."	152
External Exams in the Present System: Too Little, Too Late	154
The Merits of the 'No-Fail' Policy of MCCE	155
Abuses of No-Fail Policy	157

Chapter 5

Remedying the Maladies of Higher Education 158

5.1. Substance versus Appearance, Articulation, and Charisma	158
5.2. The Vicious Spiral of Content Dilution	161
5.3. The Damages of Empty Diplomas	162
The illusion of knowledge	163
Ignorant masses	163
Confusion in the labor market	163
Undermining democracy	164
Falling behind the Knowledge Age	165
Wasting educational dollars	165
Spreading infection	165
MCCE discredits the empty diploma trend	166
5.4. The High School's Culture of Indulgence	166
Quality Issues and Poor Resource Utilization	166
Poor Learning Accountability at the Root of High School Culture of Indulgences	167
The Working Milieu vs. High School Environment	168
The Spreading Nature of Indulgences	169
The Cost of Indulgences	169
MCCE Can Bring Order	169
5.5. A Summary of MCCE versus the Present System	170

Chapter 6

Implementation Strategy of MCCE: A Transformational Approach 179

Implementation Options	180
A Stepwise Strategy	181
1. Establishing a Skeleton of MCCE Central	181
2. Creating a Small but Scalable MCCE-CAL System	181
3. Transforming Introductory Courses into MCCE Systems	184
4. Creating De Facto Affiliated Schools	185
5. Expanding the Content Beyond Introductory Courses	185
6. Spreading the Service Nationwide and Worldwide	185
Part II: Curriculum Structure	187

Chapter 7

Curriculum Analysis-I

Major Notions Shaping Curriculum Structure 189

7.1 Whole-Person Education vs. Specialization	189
7.2 Inconsistencies in American Curriculum: Half-Heartedly Moving Toward Whole-Person Education	190
The Interplays — Not Always Positive	191
Enrollment	191
The range and variation of diploma programs	191
Faculty's Competing Objectives	192
Cohesion Problems in the Present Curriculum	193
7.3 The Evolving Education: In Step with the Changing Workforce	195
Education of the Pre-Industrial Age	195
The Industrial Age	195
Education in the Industrial Age	197
The Workforce of the Information Age	199
Education in the Information Age	200
7.4 The Knowledge Age – a Looming Avalanche that is Mostly Ignored	200
Automation in the Pursuit of Knowledge	202
The Knowledge Cycle	202
The Workforce of the Knowledge Age	206
Troubles in the Present Workforce and the Challenge of Training	207

Chapter 8

Curriculum Analysis-II

Perspectives on Content, Quality, and Strategy 209

8.1. Imagining a Wholesome Curriculum	209
Conceptual Frameworks to Organize and Retain Knowledge	212
8.2. Integration of High School and Undergraduate Education: A Step Toward Educational Cohesion	213
Is it feasible? Is it desirable?	214
It is desirable for the following reasons:	214
8.3. MCCE Helps Students to Match Their Chosen Fields of Study with Their Interests and Abilities	215
8.4 Problem-Based/Project-Based Approach versus Traditional Education	217
Education for the Uncertain Tomorrow	218
The Paradigm Shift from Traditional Education to Project-Based	218
An Example of How Project-Based Learning May Work in MCCE Curriculum Structure	220
Why is Problem/Project-Based Learning not Spreading?	222
The MCCE Curriculum Strategy: From Exposure-Based Learning to Project-Based Learning	223
Day-One Competency	224

Chapter 9

Curriculum Analysis-III

Infusing Applied Ethics and Civics Across the Curriculum 227

This chapter's single objective	227
The Argument in Brief	228
Ethics Vocabulary: a Major Source of Ambiguities	232
Moral-Ethical Ambiguities and Complexities — Where Dogma, Fanaticism, and Deception Hide and Grow	236
Accepting Evil as an Indispensable Part of Existence:	237
The Dichotomy of Competency and Value	237
Ambiguities in Personal and Collective Egos	239
Ambiguities in the Spheres of Collective Egos	240
The Traps of Identities:	242
The Ambiguity of Balance Between the Spheres of Collective Egos and Identities	244
The Ambiguities in the Triangle of Social Structure: Leaders, the Media, and the Masses	244
The Elusive Masses	246
Isolationism: The Hidden Demon	248
In Search of Discourse to Achieve Consensus on Moral Codes	249
Two Common Grounds for Inviting Consensus in the Moral-Ethical Domain	250
Towards a Uniting (not dividing) Secular Moral-Ethical Doctrin	252
In Search of an Unbiased Forum for Building Consensus on Moral-Ethical Foundations	253
Academia Can Offer the Strongest and Broadest Forums for Moral-Ethical Discourse	253
The Hurdle Is Fear	255

Implementing Applied Ethics and Civics Across the Curriculum	255
An Epilogue to Chapter 9	256

Chapter 10

Curriculum Design

MCCE Curriculum Network Structure 259

10.1. Integrating the Elements to Achieve a Cohesive Curriculum	259
The Centrality of Specialized Knowledge and Skills	260
10.2. Tailoring and Infusion to Operationalize MCCE Neural Curriculum Structure	261
Tailoring	261
Infusion	262
10.3. In Conclusion	263

Chapter 11

Recapping MCCE Contributions 265

A Macro View of MCCE	265
Highest Objectives	266
Reducing the High Cost of Education	267
Making Education Substantial Yet Attractive	268
Creating Clarity of Learning Objectives	268
Knowledge Age Education	268
Quality, Consistency, Cost, and Access	269
Countering the Plaque of Burgeoning Diploma Mills	269
The Centrality of Undergraduate Education	269
Use of Technology in Education Core-Operation	270
MCCE: An Industrial-Scale Orchestration Genre with no Environmental Damage	270
MCCE Curriculum Network Structure Enhances The Chance of Achieving a Whole-Person Education	271

Appendix

Life Dynamics

A Trial and Error Model 273

Applied to Educational Quality Attributes	273
Modeling	273
The Model	274
Life Dynamics between Reality and Intelligence	275
"Trial and Error" as Principle Axiom of Life Dynamics	275
The Cycle of Trial	278
Intelligence, Situation Knowledge, Decision Making, Utility Structure, Action, Barrier of Observability and Measurability, Data, Memory: Database	278
The Cycles of Knowledge – Error Correction	284
The Elements and Flows of Knowledge Cycle	286
The Cycle of Verification	292
A Recap: Error Correction, Policy Changes, and Modifications	294

A Unified Perspective on Knowledge, Decision, and Action to Describe Competency	295
Life-Wave Model to Depict The Dichotomy of Value and Competency	297
Using the Model to See Where a Piece of Technology Supports Human Life Dynamics.	298
The Quiet Dawn of the Knowledge Age	299
Learning and Learning Machines	300
Robots and Robotics	301
Artificial Intelligence, the Final Frontier: Peers or Rivals for Humans?	301
Artificial Intelligence, the Great Disrupter	301
References	303
Index	315
